

Stainless steel housings

Features

- Made of corrosion resistant stainless steel
- Resistant against aggressive detergents
- Suitable for standard inserts that fit into size Han® 3 A
- Fields of application
 - Food and beverage industry
 - Water and sewage industry
 - Pharmaceutical industry
 - Chemical industry
 - Offshore and shipbuilding

Technical characteristics

Material	stainless steel
Limiting temperatures	-40 °C ... +125 °C
Protection degree acc. to DIN EN 60 529 in locked position	IP44 IP65 / IP67 is achieved by usage of sealing screw 09 20 000 9918
Locking lever	stainless steel

Identification	Part number	Cable entry metric	Drawing	Dimensions in mm
Han-INOX® 3 A Cable to cable hood top entry	19 44 003 1750	M20
